City & Guilds – Unit 306 – Assessment of Risk (ENTO Unit G)

This is a 2-day course covering the basic elements of relevant health and safety legislation and risk assessment.

The course is aimed at employees who have to undertake an assessment of risks within their own workplace.

Topics covered: - Health & Safety at Work Act 1974
Management of Health & Safety Work Regulations 1999
General theory of risk assessment
Risk control measures
Risk Assessment in Practice
Common Hazards
Need for specialist Risk Assessment

Assessment is based in practical work undertaken in the employee's place of work, with written evidence and questioning of delegates as final assessment for this unit.

This course can be delivered on your own site, please contact us for more details.
